Parsha Chidon

1st Place Winner

Chaya Mushka Rose

2nd Place Winner

Chanale Gluckowsky

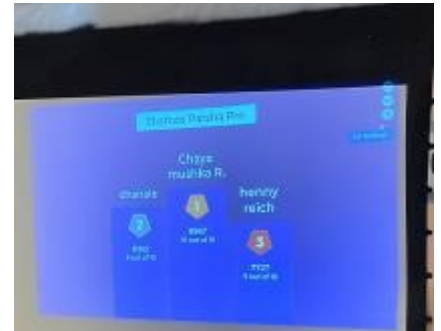

3rd Place Winner

Henny Reich

Parsha Pro Chidon

Girls in 3rd and 4th grade have been taking weekly פרשה quizzes. All girls with an average of 70 or higher were entered into a חידון. The girls all did an excellent job answering questions by the חידון!

The finalists of each round finished off the חידון with a kahoot game with additional questions. We are so proud of all the girls who participated!

Thank you to the following families who have donated books to our school library:

Feldman Family for 2 books in honor of Devorah Leah's Birthday and in honor of א"י ניסן.

Zaltsman Family in honor of Rivkah's Birthday

Gershovitz Family in honor of Chana's Birthday

Lapidus Family in honor of Ahuva Bracha's third Birthday

Ganez Family honor of Chaya Mushka's Bas Mitzvah

Drizin Family in honor of Ronia's Birthday

Orenstein Family in honor of Meir's Birthday

Hott Family in honor of Rochel Leah's Birthday

Litzman Family in honor of Ruti's Birthday

Raksin Family for donating 2 new books – one that Mrs. Raksin wrote!

Levin Family for a new book that Mrs. Levin wrote!

Weiss Family in honor of א"י ניסן

Litzman Family (Shloimy and Shternig) in honor of פסח.

6th GRADE

Mrs. Serybranski

לייט מלאכות

In Mrs. Serebryanski's 6th grade class the girls have covered the מצוה of women including חלה, נשק, and כשרות. In conjunction with that they made נשק candleholders as well as challah from scratch. A fun time was had by all.

7th GRADE

Mrs. Serybranski

לייט מלאכות Trip

In conjunction with the learning of the לייט מלאכות and learning the leather making process in which the curtains in the משכן were made, our 7th grade took a tour of a leather tannery and were able to see first hand how each step is done.

They were able to see how the skins of different animals were turned into leather or

parchment. It was a fascinating and hands on experience and truly enjoyed by the girls!

ב' אייר

Middle School had a fantastic time putting a puzzle together with a לכתחילה אריבער perspective! Great job to our 6th Grade winners!

Middle School

Mrs. Gluckowsky

4th GRADE

Miss Rimler

Miss Rimler's 'אהבת ישראל' is focusing on אהבת ישראל, מחשבה דיבור, and מעשה over the next few weeks through different lessons, discussions, and activities.

To introduce the program, each student got a puzzle piece and the class had to work to put it together, helping each other out and including each girl. They saw the importance of each piece, that if even one is missing the picture is not complete! So too, each girl in the class is important and makes the class complete.

On the teacher's desk, we keep a nice big journal in which the girls can come over whenever they want to write down their acts of אהבת ישראל, from both at home and at school. Below are some of the [anonymous] entries from the class journal, of real life examples from this past week. We are excited to fill it up even more over the next few weeks!

- By recess I held the door open for a teacher who was holding stuff.
- I let 2 people from another grade play ball with me.
- I played with someone who was alone during recess.
- I saw someone give a jacket to her friend.
- We included a lot of girls in our game by recess.
- My sister needed help with homework and I helped her.
- Someone was lonely, so I asked if she wanted to play with me by recess.
- My sister needed a marker for her art project so I gave one to her.
- I included someone in our ballgame.
- A friend let me use her highlighter.
- A friend asked me if I wanted to play with her.

4th GRADE

Mrs. Kohl

4th grade did an exciting science experiment yesterday to learn about density. We placed skittles around a plate and poured warm water on them. We watched as each color dissolved into a beautiful rainbow of colors.

We also noticed that the colors did not mix with each other. We discussed how each color skittle creates an unique water solution with a slightly different density, thus creating a barrier that prevents the colors from mixing. The best part of the experiment was getting to eat the extra skittles when we were done!

2nd GRADE

Morah Oster

כתה ב' סיום

סיום ג' פרק was a real success and so much fun!! The girls were divided into groups and worked completely on their own and with אהבת ישראל. There was a great game prepared, a beautiful skit and signs on the פרק! The girls made edible sheep out of marshmallows and other creative things with their treats. Keep up the great work!
