INTERACTIVE LESSON
UPSTANDER VS. BYSTANDER
 Led by Mrs. Rosenbluh

Upstander vs. Bystander

As our students finished learning the first פרק of קרח, the 7th and 8th grade discussed the concept of the "bystander effect". Had the אידען spoken up and defended Moshe against קרח would we have had a different outcome?

'ארתא' made an arts and crafts project In honor of Rochel Immeinu's יארצייט .

We had a panel of students taking questions from the audience about how to be an up stander and not a bystander. The girls had many interesting thoughts and insights on this topic.

Thank you Mrs. Rosenbluh for arranging and moderating this discussion.

7th GRADE

Mrs. Weiss

After learning the הכנה היום יום - "לתפילה"

breakfast for the soul" every morning, the 7th grade students were treated with a breakfast which the really enjoyed!

8th GRADE

Mrs. Gluckowsky

8th graders were treated to a breakfast because they worked hard on making their davening a meaningful and special experience every day.

First Grade Back To School Night

We would like to invite you to a virtual back to school night to meet our lovely teachers. Tuesday, November 3, 2020 at 7:30 pm. It will be an opportunity to hear straight from the teachers what their expectations are and how we can all work together to help our daughters succeed.

Looking forward to greeting you,

Thank you,

Mrs. Rosenbluh
Mrs. Friedland

4th GRADE

5th GRADE

Miss Stern

Thank you
Mirel Deitsch for a fantastic
current events presentation!

Miss Stern's 5th graders/ 5A students decorated
beautiful posters in honor of the
election.

2nd GRADE

Morah Oster

Kita beis ב"ה started learning
שרשים. Morah Oster introduced the
topic by bringing in many different
foods that the root word was corn!!

It's a 2nd GRADE Thing

Preschool News

Dear Parents,

לך פרשת לך lends itself to so many living lessons and hands-on activities. We heard how Avraham listened to Hashem without asking questions and about the concept of קבלת עול. We learned that we can apply this to listening to our parents and Morahs.

Our Nursery and UPK kinderlach have started learning the 'א-ב' and are doing so well B"H. They have also been learning all about the world around us and how incredible Hashem's creations are. This week they enjoyed learning all about Fall and clouds. In pre1a our kinderlach have been focusing on their קריאה skills and are making progress each day. A big welcome back to our Pre1A Boys class. We definitely missed all of you!

Please remember to send healthy snacks to school. The snacks can be העץ, האדמה, or a protein.

א גוט שבת!

Morah Chaya Light

Middos Mentch skill of the week:

Respect by Listening- This week we learned that 'ה has given us special tools that can help us show respect to others. We can use our eyes to watch, ears to listen, mouth to stay quiet and a body that's still. The kinderlach all came up with reasons as to why it's important to show respect to others. With the help of our Middos Mentch puppet we learned a useful chant. "Eyes are watching, ears are listening, voice is quiet Body still/freeze!"

Science

with Morah Michal

This week we learned all about teeth and dental hygiene. We asked the question; What happens to our teeth when we drink sugary drinks like soda and what happens to our teeth when we drink milk? After putting an egg, representing the tooth, in milk and one in soda, everyone observed that the one in coke turned brown while the one in milk stayed white. We brushed the brown "tooth" with toothpaste and it got cleaner but wasn't as nice as the "tooth" that was in milk. The lesson learned is to drink milk that has calcium and foods that are good for our teeth and of course brush those teeth!

Wishing you all a good Shabbos!

Morah Chaya Light
